

## Who We Are

Zione Solutions is an IT services company that advises clients on solutions architecture & best practices and provides world-class technical consulting services. We offer full support to clients and partner developers during integration and collaborate with customers to provide the ongoing support they need to navigate the ever-changing needs of the IT world. With our unparalleled industry knowledge, a proven track record, ability to go-live with zero escalation and an indefatigable commitment to our clients, we are your ideal provider for all things IT.

**Professional Services** - Partner with our unique, best-in-class development capabilities, expertise, assets & ingenuity to navigate technology options & trends, and architect long-lasting, best-fit solutions.

**Managed Services** - Zione's Managed services are more than just keeping the lights on. Our dedicated team delivers cost-management, superior performance improvements & technology innovations by providing complete IT outsourcing solutions & IT support.

**Cloud Services** - Zione Solutions proudly leads the pack in enterprise class, cloud-enabled hosting, managed application & services for organizations outsourcing IT infrastructures. We provide a full suite of reliable & scalable managed services to lower your operation costs.

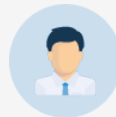

### Our Vision

To be the most valued and dependable consulting service provider, delivering excellence.

### Commit To Excellence

Do it right the first time. Make it Easy for the Customer. Think ... "Solutions not problems." Think ... "Relentless Improvement."

### Our Biggest Asset

We take pride in our distinguished & extraordinary work force and aim to help them continue to develop both personally and professionally.
